The Guidelines for Disqualifying Conditions for Sports Participation listed on this form serve only as recommendations to the examining physician. The decision as to whether a student is qualified to participate should be individualized. In case of differences of interpretation the decision of the school physician has precedence. Appeals may be requested through established procedures.

# IMPORTANT NOTICE TO PARENTS / GUARDIANS!

---

- New York State Commissioner of Education Regulations requires every student to have a physical examination before participating in senior high school interscholastic sport activities.
- The physical examination and the Department of Health/Department of Education Sport Examination form may be completed by the Department of Health physician at no cost to you, or, by your personal physician.
- The attached Sports Examination form is more comprehensive than the form it replaced. The purpose of this new form is to ensure that your child receives a complete physical examination prior to participating in interscholastic sports.
- The American Academy of Pediatrics, the New York City Department of Health and the Department of Education strongly recommend that every student have a complete physical examination including the Maturation Index prior to competing in interscholastic athletics. The Maturation Index\* notes the stage of pubertal development and should be included for the protection of the student. The index is one indicator of a child's bone development and is helpful to the physician in assessing the total development of the child and his or her fitness for sports participation. However, as inclusion of the Maturation Index is optional, the parent/guardian decides whether or not the physician includes the rating. (If you do not want the physician to make an entry for the Maturation Index, write "No Maturation Index" to the left of your signature.)
- The term "clinician", appears on the Sports Examination form and refers to physicians, nurse-practitioners and physicians' assistant. The physical examination may be performed by any of these medical personnel.
- As the Sports Examination form indicates, the student's medical record is strictly confidential and is on file in the school medical office. The student's medical record is not part of his or her academic record, and is not subject to examination by anyone except authorized personnel.

**PLEASE NOTE: ALL STUDENTS SHOULD RECEIVE REGULARLY SCHEDULED COMPLETE PHYSICAL EXAMINATION BY A PHYSICIAN OF THE PARENT/GUARDIAN'S CHOICE.**
